Ronnie and Chase had been writing music together for years, long before the conception of their band.

Formed in 2013, theWorldisnotRound got its name spontaneously on a lazy Sunday afternoon in Chase's basement.

Fueled by their shared passion and love for music led them to discover their own style of indie with a unique blend of **rock**, **mid-western emo**, **synth-wave**, and **pop**.

This sound is elevated and exudes an uplifting energy that goes beyond what is typically heard in the genre.

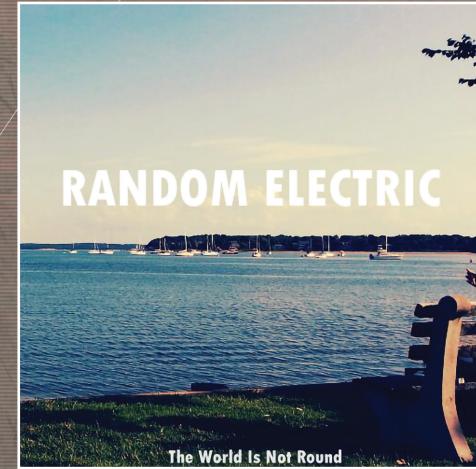

Chase - Guitar, Synth, Vocals, everything else.

Ronnie - Bass, Back-up Vocals.

Since their debut, the group has put out an EP in 2014 called "Random Electric EP," as well as two full-length albums: "Alpha Rhythm" in 2016 and "oblatespheroid" in 2018.

These records were well-received not only in their home city of Iligan, but also across the Philippines.
